Profiling Sheet

Q.1: Write your career objective.

To build a successful career as an engineer where I can apply my technical knowledge, problem solving skills, and continuous learning mindset to contribute to organizational growth and while developing profession professionally.

Q.2: Why do you want to be an engineer? Elaborate reasons.

I want to be an engineer because engineering allows me to solve real world problems using logic and technology. I enjoy understanding how things work and connecting ideas into practical solutions. Engineering also gives opportunities for innovation, growth and impact on society.

Q.3: Write about projects or internship you have done/ are doing along with the learning.

I took on two projects i.e Crops Management System and Rapid Response System. The learning through these projects I learned logical thinking; coding; real world application, and how to work in team.

Q.4: What would you consider a significant achievement in your life and why?

A significant achievement in my life is consistently improving my technical skills through self-study and also consistently working on my verbal communication by the regular practice. I worked on strengthening my technical knowledge while also focusing on expressing my ideas clearly and confidently. This achievement is important because it reflects my continuous learning mindset which increased my confidence and helped me be better and better.

Q.5: Write about a failure of yours which you consider to share. What have you learned from it?

I once failed to perform well in an exam due to poor time management. This taught me the importance of planning, consistency and regular revision. Since then, I have improved my study strategy and discipline.

Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.

My strengths are consistency, adaptability, discipline and being a good listener. I adopt a regular study routine and stay disciplined towards my goals. I adapt quickly to new situations and learning environment, which helps me handle challenges effectively. One instance where I demonstrated these strengths was during exam preparation for difficult technical subjects.

Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?

My weaknesses include verbal communication and time management. At times, I find it difficult to express my ideas confidently in spoken form, and I sometimes struggle to manage my time efficiently when handling multiple tasks. To overcome these weaknesses, I am actively working on improving my verbal comm. by practicing speaking regularly and participating in discussions. For time management, I plan my tasks, set priorities, and follow simple schedules to use my time more effectively.

Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?

The most difficult moment I faced was when I struggled to balance my academic workload with personal challenges, which affected my performance. During this time, I felt stressed and disinterested with my progress. However, qualities like consistency, adaptability, and discipline helped me overcome this phase. I adjusted my study methods, stayed committed to a routine and learned to manage my time better.

Q.9: Apart from academics, what else are you interested in?

Make a separate list in terms of extracurricular activities, sports and any other interests.

Extracurricular activities = working on personal tech projects like AI/machine learning projects and attending workshops and webinars on technology and innovation.
Sports = Playing badminton and cricket regularly.
Hobbies = Reading books

other interests:

Reading articles in my personal interests

Learning new programming tools.

Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.

I am absolutely passionate about technology and problem solving, especially learning how systems work and finding efficient ways to solve real world problems. I enjoy exploring new technical concepts and practicing coding, and improving my logical thinking skills. This passion motivates me to keep learning independently, overcome challenges, and continuously improving my abilities.

Q.11: Describe yourself as an individual in 5 lines.

I am disciplined and motivated.

I enjoy learning new skills.

I am goal oriented.

I stay positive under pressure.

I believe in continuous improvements.

Q.12: What kinds of people do you enjoy working with?

I enjoy working with people who are positive, respectful and supportive. I like team members who communicate openly and willingly to share ideas. I like to work with people who are committed to their work. I also enjoy working with those who are eager to learn and help others.

Q.13: What kinds of people you don't want to work with?

What would you do if they became your senior in your dream job?

I do not prefer to work with people who are negative and dishonest or disrespectful towards others. I also find it difficult to work with those who avoid responsibility or do not value teamwork. If such person became my senior in my dream job I would focus on learning, improving my skills and completely my tasks ^{and} ~~positive~~ ^{sure} ~~attitude~~.

Q.14: What do you expect from your first job? Prioritize and write in order.

1) ~~Learn~~ ^{new} things i except from my first job. are as :-

1) Learning and skill development

2) Good work environment

3) Exposure to real world projects

4) Career growth opportunities

5) financial stability

Q.15: In the past year, what have you been dissatisfied about in your performance?

In the past year, I have been dissatisfied with my verbal communication and time management, which at times affected my performance. Due to these challenges I was not able to complete ~~may~~ some projects and assignments on time, even though I had the required technical understanding.

Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?

I would rate myself 2 out of 5 in verbal communication. I feel I still struggle to express ~~my~~ ^{best} thoughts clearly and confidently, especially in familiar or unfamiliar situations. Sometimes I know the ideas

but find it difficult to put them in proper words. To improve, I practice speaking English daily, read and try to participate in public speaking.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My role model is Bill Gates. I admire him for vision, dedication to learning, problem-solving mindset, and commitment to using technology for social goods. I would like to develop qualities such as his analytical thinking, persistence, and ability to turn ideas into impact solutions. These qualities inspire me because they show how knowledge, innovation and hard work can also lead not only to achieve professional success but also make a positive difference in society.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends are supportive, motivating, and share a positive mindset towards learning and self-improvement. They help me in achieving my goals by encouraging me during difficult times, sharing knowledge and helping me stay consistent and focused. Through healthy discussion and teamwork, they motivate me to improve my skills and think positively. I accompany them because of their supportive environment.

Q.19: Write 3 leadership qualities. How many do you possess?

Write an instance where you have applied those qualities.

Three key leadership qualities I value are responsibility, discipline and adaptability. I believe I demonstrate all three for my instance, during a group PBL projects. I took responsibility for my assigned tasks, discipline with deadline, and adapted to unexpected challenges. This approach helped the team work efficiently and contributed to the successful completion of the projects.

to unexpected challenges, this approach helped the team work efficiently and contributed to the successful completion of the project.

Q.20: So finally, tell us something more about yourself or introduce yourself.

My name is Priyanshu Bhall. Currently I am pursuing Bachelor of Technology in computer science specializing in AI and machine learning. I worked on projects like crop management and a responsive rapid response system, which allowed me to apply AI/ML techniques to real-world problems. These experiences helped me strengthen my technical expertise as well as teamwork, project planning and problem-solving skills. My hard skills include programming in Python and Java, data analysis, machine learning, and while my soft skills include adaptability, consistency and I have also attended and participated in various workshops and seminars, broadening my understanding of emerging technologies. My hobbies are the ~~read~~ articles, playing cricket, and badminton.
